

Anchor ANMT502XL Wall Mount for 42"-90" Flat Panels:

Take any viewing experience from ordinary to extraordinary with the Ultra Slim Articulating Wall Mount. It's one of the thinnest wall arm mounts on the market, designed exclusively for ultra thin displays. It holds a display this close to the wall, yet extends out to provide virtually any viewing angle. Dual-arm construction means it is robust enough to hold larger displays firmly in any position, and it comes with the ease-of-installation and intuitive adjustments that are simply Peerless-AV.
