

## Allen & Heath 8 XLR Input / 4 XLR Output GLD and Qu Mixers AudioRack:

AR84 is an 8 XLR input, 4 XLR output AudioRack, compatible with GLD, Qu, Avantis and SQ mixers. Adding an AR84 to your system lets you position some of your I/O up to 100m from the mixer, connected over a single Cat5 cable running Allen & Heath's dSNAKE protocol. dSNAKE provides control to the remote preamp, and all mic preamps are scene recallable.

### Features:

- 8 Mic Preamps on XLR
- 4 XLR Line Outs
- dSNAKE Connection with locking Ethercon port
- Rack mountable
