

Allen & Heath 4 Dual Channel Inputs Digital Module:

Digital Input Module is designed for the iLive iDR-10. This module provides 8 digital inputs arranged as four pairs. Each offers a choice of digital format - AES, SPDIF or optical (TOSLINK). For each pair, one format is chosen and used at a time. The selection is made using the iLive Surface or PC application channel SEL function. One of 3 yellow LED indicators lights to show which input format is selected.

Features:

- Blanking plugs are provided for unused optical sockets to prevent interference and dust contamination
- CHK Yellow indicator follows the PAFL function
- This provides a quick way to identify which sockets are mapped to the channels
