

Sonos S1SHFWW1 Shelf for the Sonos One or PLAY One:

Mount your Sonos One or PLAY:1 speaker to the wall with the white Sonos Shelf. It is designed specifically to match the contour, color, material, and finish of your speaker and allows you to place the speaker on either the left or right side of the shelf, providing room for additional compact objects, such as your phone. The internal wraparound cable management design helps keep your installation looking neat.

Key Features

- For Use with the Sonos One or PLAY:1
- Wall Installation
- Speaker Placement on Left or Right Side
- Integrated Cable Management
- Space-saving design with integrated wraparound cable management within the shelf
- Shelf can be placed either way, so you can orient your speaker on the left or right side
- Designed to support the weight of your speaker in addition to small, everyday objects, such as your phone or other compact electronic devices
- Engineered to match the color, material, finish, and contour of your speaker
