

## PRODUCT OVERVIEW

### DYMO D1 Labels

Bring order to your home or business with DYMO D1 Labels. Designed for use with DYMO LabelManager, LabelWriter Duo, MobileLabeler and LabelPoint printers, they are packaged in a continuous cassette that allows you to create easy-to-read labels of almost any length. With convenient easy-to-peel backing and the ability to adhere to plastic, paper, metal, wood, glass, and other clean and flat surfaces, DYMO D1 Labels make it easy to organize your items.

DYMO D1 Labels are available with either a standard adhesive backing ideal for basic labeling tasks like filing and storage--or a permanent adhesive backing for when you want a label to stay put indefinitely.

### **Ink-Free Printing with Thermal Transfer Printing.**

DYMO D1 Labels use the thermal transfer printing technology of the DYMO LabelManager and LabelWriter Duo label makers to provide sharp lettering without the use of ink or toner. The text resists smudging and smearing to provide consistently professional results.

## ✓ EASY TO USE

### **Easy-to-Peel Backing for Convenient Application.**

The split-back design of DYMO D1 Labels makes it simple to apply the labels to almost any clean and flat surface. The versatile labels are designed to remove easily without leaving behind residue.
