

Epson® Print Admin Serverless

Business Printers

Software

The serverless print management solution for enhanced productivity.

Embedded solution — no server installation required

Device authentication — via LDAP, name/password, PIN number or card reader

Usage reports — log and track usage

Print job security and retention — securely access and release jobs from the printer; save jobs to printers for printing at a later time

Simplified scanning workflow — scan and send documents to My Email or My Folder

Secure printing from any PC — access user accounts via user name and password

Task tracker — built-in meter to count pages for print, copy, scan and fax

Job modifications — use the printer's control panel for last-minute changes, such as number of copies
