

DigitalDeckCovers Dust Covers protect your valuable equipment against dust, spills, scratches, water, and other contaminants. We offer only the best anti-static fabrics, including: nylon with PVC lining, heavy-weight cotton, premium padded vinyl, and quilted options for an extremely sturdy, durable and attractive dust cover. (See our *Fabric Page* for detailed descriptions and photos.)

Each cover has an open bottom and slips over the top of your equipment, and can easily be folded and stored when not in use.

Our dust covers are machine sewn with heavy duty thread to make sure they will never fray or come apart, and the bottom is double hemmed for a good fit that stays put.

Specifically, this protective cover is individually made to fit the specifications of a SOUNDCRAFT GB4-32.
