

The HSD 171 Professional Headset with Dynamic Microphone from AKG is designed to be rugged and ready for recording, intercom, ENG/EFP, and video production. The HSD 171 professional closed, on-ear studio headset provides high noise insulation, which is well-suited for use in loud environments. The headset combines the K171 MKII studio headphones with a rugged dynamic microphone. The flexible microphone arm swivels through a 270° arc and mutes the microphone automatically as it is moved up. The microphone can be mounted to the left or right side, depending on personal preference and available space. The HSD 171 headset features a switch in the headband that mutes the audio just as soon as the headphones are taken off. The rugged 6-pin mini XLR connector allows quick replacement of the cable. If a cable should become defective under the enormous stress of day-to-day broadcast work, it can be replaced quickly and without any tools. The headset is not supplied with a connecting cable (sold separately).

## Specifications

Earpiece Design	On-Ear (Supra-Aural), Closed-Back
Number of Earpieces	Dual Earpiece
Driver Type	Dynamic
Impedance	55 Ohms
Frequency Response	18 Hz to 26 kHz
Sensitivity	107 dB SPL/V
Maximum Power Handling	200 mW
Type	Dynamic
Pickup Pattern	Hypercardioid
Frequency Response	60 Hz to 17 kHz
Sensitivity	-60 dBV1 mV/Pa
Maximum SPL	124 dB
Impedance	600 Ohms
Equivalent Noise Level	15 dBA
Audio Connector to Earpiece	x Mini XLR 6-Pin Male
Material of Construction	Leatherette, Velvet
Dimensions	3.3 x 8 x 7.8" / 85 x 205 x 200 mm
Weight	7.8 oz / 221.1 g
