

PRODUCT HIGHLIGHTS

The DAM+ Series reference gooseneck modules for permanent and mobile installation are available in three different lengths: 165mm (6.5in), 300mm (11.8in) or 500mm (19.7in). The extremely slim and rugged gooseneck modules feature an LED ring which indicates whether the phantom power is on or off. A special light-ring expander comes with every DAM+ gooseneck module to improve the visibility of the LED ring if necessary. For quick setup and maximum flexibility all gooseneck modules come with a DAM+ Series system connector. This high quality connector with gold-plated contacts reliably fits all available phantom power modules. The gooseneck module is compatible with all DAM+ Series capsules, CK41, CK43, CK49 via self-cleaning contacts. Their extremely deep thread groove prevents misalignment and ensures a long useful life of all DAM+ components.

SPECIFICATIONS

General Information

Manufacturer	Harman International Industries, Inc
Manufacturer Part Number	3165H00080
Manufacturer Website Address	http://www.harman.com
Brand Name	AKG
Product Series	DAM+
Product Model	GN15 M
Product Name	Reference Modular Gooseneck Modules
Packaged Quantity	1
Product Type	Microphone
