

## **SR470**

### **Specifications:**

- Frequency range: 35 - 20,000 Hz;
- Signal-to-noise: 120 dB-A;
- Operating temperature range: from -10 to +55 Celsius;
- Radio sensitivity: -100 dBm;
- Recommended number of channels for simultaneous operation: 32;
- Number of selectable frequencies: 1220;
- Frequency selection step: 25 kHz;
- Case material: metal;
- Black color;
- Dimensions: 44 x 202 x 177 mm.

## **PT470**

### **Specifications:**

- Frequency range: 35 - 20,000 Hz;
- Signal-to-noise: 120 dB-A;
- Peak Deviation: 48 kHz;
- Nominal Deviation: 20 kHz;
- Signal output power (min / max): 10 - 50 mW;
- Connector: Mini XLR;
- Case Material: Plastic;
- Black color;
- Dimensions: 30 x 73.5 x 60 mm;
- Selectable bandwidth: 30 MHz;

- Recommended number of channels for simultaneous operation: 24;
- Number of selectable frequencies: 1220;
- Selection step: 25 kHz;
- Working range: 100 meters (direct visibility).
