

SILVERSTONE[®]
Designing Inspiration

FORTRESS series

SETTING THE THERMODYNAMIC BENCHMARK

SPECIAL FEATURES

- Two Air Penetrator AP182 fans included for exceptional performance or quietness
- Removable motherboard tray and top panel
- Quick access filters with HiFlow Technology to prevent dust buildup
- Foam padded interior for advanced noise absorption
- Unrestricted airflow design with unique angled vents minimizes noise and maximizes fan performance
- Convenient routing pathways for excellent cable management
- Adjustable holder for large CPU coolers and graphic cards
- Independent airflow channel for power supply with dedicated PSU filter
- Accommodates up to seven 3.5" hard drives and four 2.5" SSD's

SPECIFICATIONS

Model	SST-FT04B (black) SST-FT04S (silver) SST-FT04B-W (black + window) SST-FT04S-W (silver + window)
Material	Aluminum door and top panel, steel body
Motherboard	SSI-EEB, SSI-CEB, Extended ATX, ATX, Micro-ATX
Drive Bay	Exposed 5.25" x 2 Internal 3.5" x 7 (2 hot-swap) , 2.5" x 4
Cooling System	Front 2 x AP182 180mm intake fan 500~2000rpm, 17~42 dBA (compatible with 3 x 120mm fan) Rear 1 x 120mm fan slot
Expansion Slot	8
Front I/O Port	USB 3.0 x 2 audio x 1 MIC x 1
Power Supply	1 x Optional standard PS2 (ATX) no length limitation
Expansion Card	Compatible up to 13.3" long, width restriction-6.69"*
Dimension	219mm (W) x 546mm (H) x 482mm (D), 57.6 liters

FORTRESS series

SETTING THE THERMODYNAMIC BENCHMARK

Beautiful flowing full aluminum one-piece front door

Side mounted USB 3.0 and I/O ports

Dual 180mm Air Penetrator AP182 intake fan included with speed dial

Quick access filters with HiFlow Technology

Removable 3.5" hard drive cage for up to five drives

Dual hard drive bay with hot-swap capability

Removable fan filter for power supply intake area

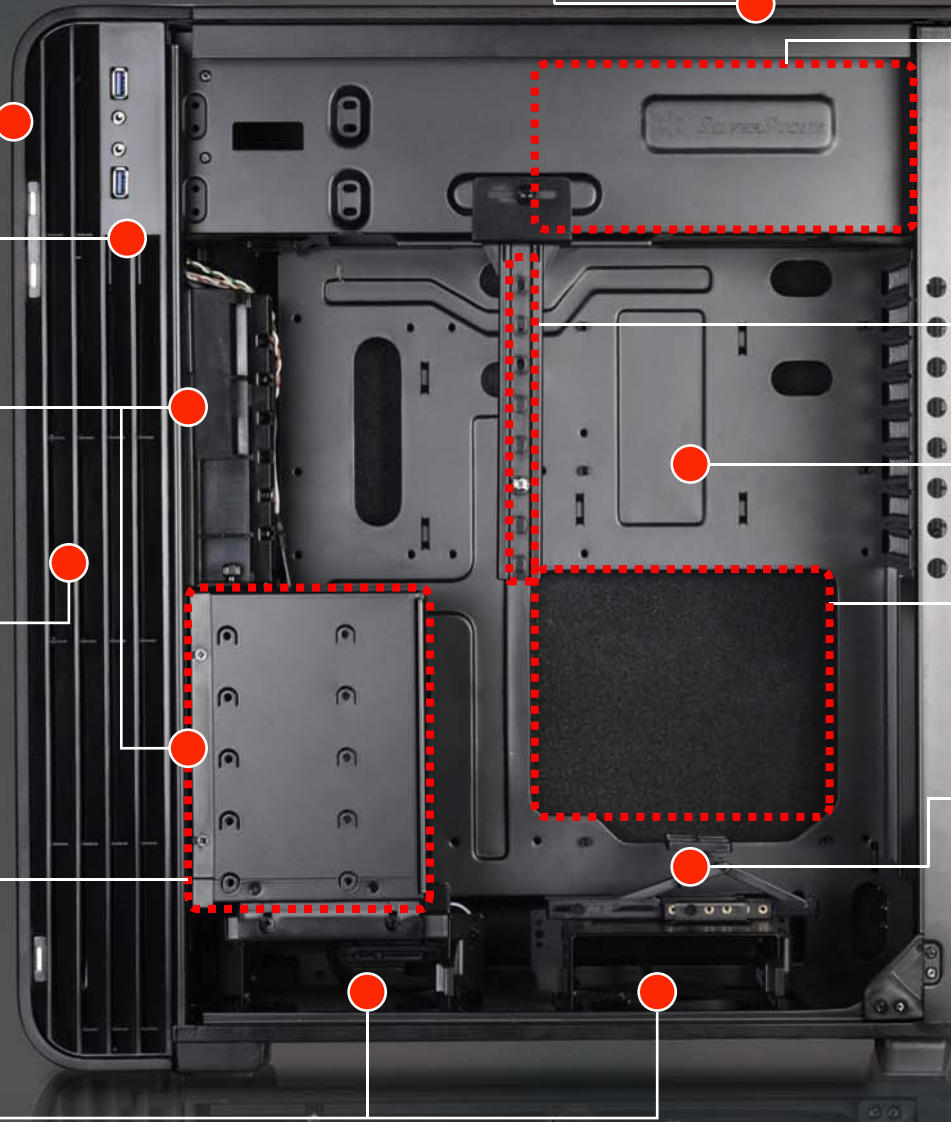

Independent power supply compartment

Adjustable graphic card support

Removable motherboard tray supports Extended ATX motherboards

Oversized motherboard tray cut-out for CPU cooler backplates

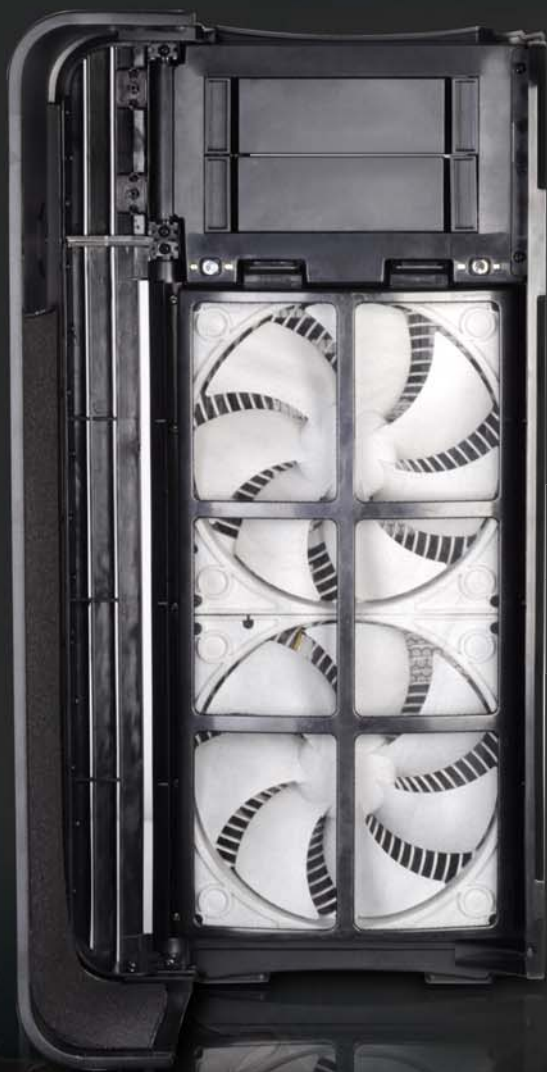

Innovative, adjustable CPU cooler support

INTRODUCTION

Superior combination of cooling performance and silence has always been the key for SilverStone Fortress series' success and the Fortress FT04 has certainly retained this family trait in fine fashion. For the first time in a SilverStone chassis, two Air Penetrator AP182 adjustable fans are included to provide unprecedented volume of air for their size. With uninterrupted airflow design and new HiFlow fan filter that improves flow rate by nearly 40% compared to its predecessor, the FT04 is capable of astonishing cooling performance despite having only two fans. To contain unwanted noise, foam padded interior is retained from previous designs while new rear-angled front vents guides potential leaked noise away from the user.

Although smaller in volume compared to the Fortress FT02, the FT04 can still accommodate up to 11 hard drives and has many nifty features such as CPU and graphic card supporter, removable motherboard tray, and externally accessible fan filter assembly. Wrapping around this technical powerhouse is a stunning one piece-like extruded aluminum front door and top panel finished to the same standard as SilverStone's premium Temjin series cases. For those looking to upgrade to a chassis with Fortress series' legendary performance in smaller footprint or a more traditional layout, the FT04 is perfect.

Recommended Products

HE01

Twin tower cooler for maximum cooling performance

ST1200-G-EVO

PSU designed for 80 PLUS Gold level of efficiency to reduce wasted heat and save electricity.

FP58

Use FP58 to support a slim loading CD-ROM and four 2.5" devices in a 5.25" drive bay.

CP05-SAS

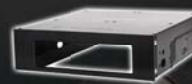

Convenient hot-swap SAS / SATA 6G connector

HE02

The ultimate heatsink with flexibility in nearly all applications

FP55

Use FP55 to support one 3.5" and two 2.5" devices in a 5.25" drive bay

CP07

CP07 & CP08 SATA III cables are perfect for any regular SATA devices
