

SILVERSTONE[®]
Designing Inspiration

TEMJIN SERIES TJO4-E

Reinterpretation of an all-time classic

Special Features

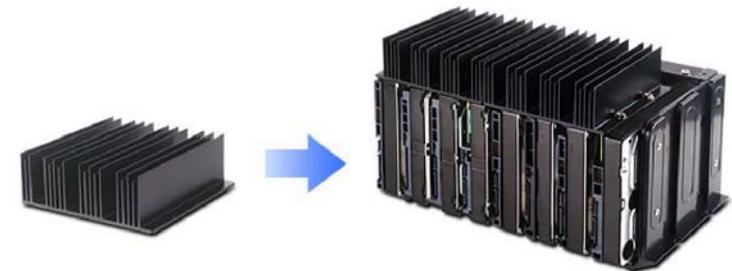

- Positive pressure design for effective dust reduction
- Support eight expansion slots and extra long graphic cards up to 17 inches
- Classically styled 7mm thick aluminum front panel
- Quick access and removal for fan filters
- Smart backside cable routing design
- Motherboard back plate opening for quick CPU cooler assembly
- Support up to nine 3.5" hard drives and multiple 2.5" drive slots
- Built-in innovative hard drive cooler
- Includes two custom SATA cable for improved cable management

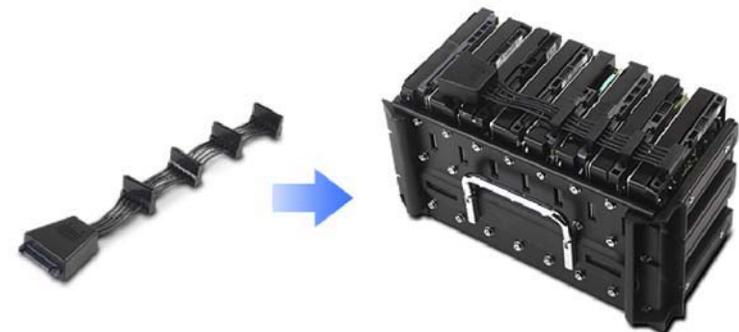

Specifications

| | |
|-----------------------|---|
| Material | Aluminum front panel, steel body |
| Model | SST-TJ04B-E (Black) SST-TJ04B-EW (Black + Window) |
| Motherboard | SSI CEB, ATX (up to 12" x 10.9"), Micro ATX |
| Drive Bay | Exposed 5.25" x 4 Internal 3.5" x 9 (optional 3.5" x 8 + 2.5" x 1), 2.5" x 6 |
| Cooling System | Right 1 x 120mm intake fan, 1200rpm, 21dBA 1 x 120mm fan slot (optional) Rear 1 x 120mm exhaust fan, 1200rpm, 21dBA Top 1 x 120mm intake fan, 1200rpm, 21dBA 1 x 120mm or 140mm fan slot (optional) Bottom 1 x 120mm fan slot (optional) |
| Expansion Slot | 8 |
| Front I/O Port | USB3.0 x 2 (backward compatible with USB2.0) audio x 1, MIC x 1 |
| Power Supply | Standard PS2 (ATX) *1 |
| Expansion Card | Compatible up to 17 inches in length *2 |
| CPU cooler limitation | 168mm |
| Dimension | 214mm(W) x 489mm(H) x 489mm(D) |

- 1 – If bottom fan or 2.5" SSD is installed, the maximum depth for PSU is 180mm (or 160mm with extra cabling room), otherwise there are no depth limitations.
2 – If hard drive is installed in front of the cards, the length limitation is 12.8 inches.

Built-in innovative hard drive cooler

Includes two custom SATA cable for improved cable management

Two top fan slots support 120mm and 140mm fans
(one 120mm fan included)

Beautiful brushed aluminum front panel
with diamond-cut edge treatment

Smart cable management design with
multiple pass-through holes

Quiet 120mm fan included for
rear exhaust

ATX/SSI-CEB compatible motherboard
tray with cut-out for CPU cooler
backplates

Four tool-less 5.25" drive bays

Supports eight expansion slots
and graphics cards of any length

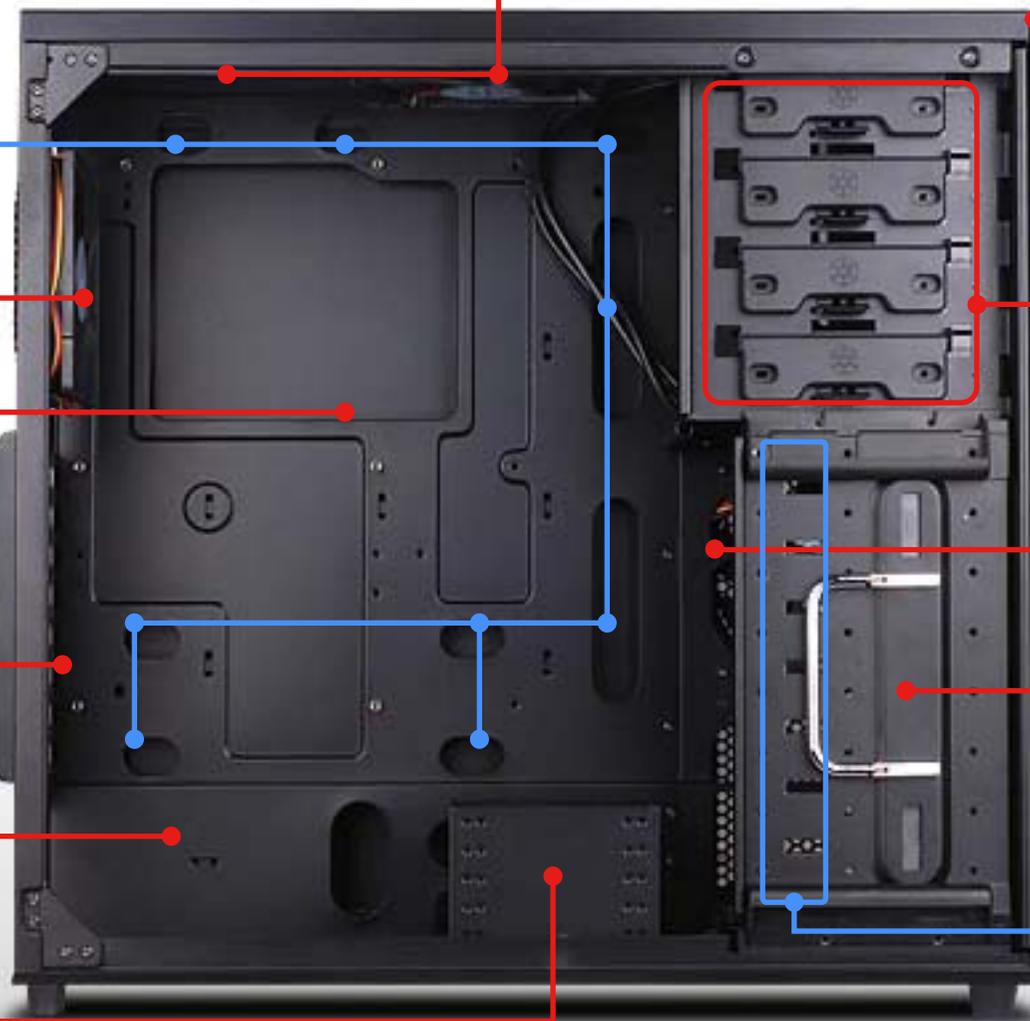

Two 120mm fan slots on right side
(one 120mm fan included)

ATX/PS2 power supply compartment
support any length PSU

Specially designed drive cage with
heatsinks and custom SATA cables
included

Efficient use of space to support up
to additional six 2.5" drives

Cass-leading support of up to nine
3.5" hard drives

Introduction

Introduced in 2004, the TJ04 has been a main stable of SilverStone's prestigious Temjin series of tower chassis. Its excellent original design needed only a few minor tweaks and improvements over the years to keep up with the demands of modern PC hardware. An important equation in keeping the TJ04 a popular choice among system builders was its understated and classic styling. So in designing the TJ04-E (Evolution), SilverStone engineers kept the exterior styling largely unchanged while vastly improving the internals.

The power supply is now bottom-mounted with the ability to accommodate up to four 5.25" drives, nine 3.5" hard drives and six SSDs, raising the bar significantly for storage capacity in a mid tower format. In addition to increased storage capacity, the TJ04-E can also install cards up to 17 inches without the need to remove any hard drive cage, a feat usually accomplished in full towers. To make sure the myriad of component can operate effectively, the TJ04-E includes a custom cooling solution to reduce hard drive temperatures and two custom SATA cables with built-in capacitors to facilitate cable management and improve drive stability.

To finish up TJ04-E's already impressive layout efficiency, design details borrowed from other great SilverStone products such as positive pressure and quick removable filters will enable users to easily maintain consistently high performance for years to come. So it is possible that TJ04-E, like its predecessor, will again be able to outlast many generations of PC builds.

Recommended Products

FP35
3.5" device bay with eSATA, card reader, USB, 1394, and audio.

FP55
The FP55 is a 5.25" to 3.5" drive bay bracket for two 2.5" hard drives or SSDs and one 3.5" device or drive.

FN121-BL
Equip your TJ04-E with FN121-BL for added lighting effect in available 120mm fan slots.

CP08
SATA-II cable with 90 degree connector.

AP121
Wide fan blades for reducing air resistance.

Suscool 121
120mm fan with super quiet temperature control.

Graphic Card Length Reference:

AMD Radeon HD 5970 – 12.2"

AMD Radeon HD 6990 - 12"

AMD Radeon HD 5870, 6950, 6970 – 11"

NVidia Geforce GTX 590 – 11"

NVidia Geforce GTX 480, 580, 570 – 10.5"

AMD Radeon HD 5850 – 9.5"

NVidia Geforce GTX 470 – 9.5"
