

The Velbon Precision Leveller is an adjustable base which fits between the tripod column and head. It allows a standard video tripod to become more versatile and professional. The adjustable base allows easy tilt adjustment of up to 10° and includes a 360 degree scale for smooth, precise panning and panorama shots. The Precision Leveller can be attached to tripods having 1/4" or 3/8" mounting screws and offers 1/4" or 3/8" options for mounting a head. There is a bubble level to help with accurate setup and ensure perfectly horizontal panning. Base and top diameter: 51.6mm, Height: 41.6mm. Dimensions: 95 L x 85 W x 44 H (mm). Max. suggested load: 5kg
