

## PRODUCT OVERVIEW

Jabra Link 260 USB Adapter, is compatible with any corded Jabra QD headset and all leading brands of softphones. As a result, users can continue to leverage the benefits of a professional Jabra headset, including superior sound, noise canceling and all-day wearing comfort. This makes it the ideal solution for contact centers that want a smooth and cost-effective transition to a Unified Communications solution.

The Jabra Link 260 incorporates a number of sound quality features, such as Digital Signal Processing (DSP) for greater intelligibility, and noise filtering for a cleaner, distortion-free and smooth audio experience. Reduce the number of sick days and increase employee retention. Jabra Link 260 delivers acoustic shock protection and its convenient in-line control buttons let you enjoy quick, optimized use of your softphone. At the press of a button you can answer/end calls, put calls on hold, adjust volume and mute the microphone. All of the buttons can be programmed from the computer to perform user-defined tasks such as "Call on hold", "Reject incoming call", "Redial last number" and/or "Dial voice mail" – or to comply with commands in future softphones.
