Silent Pro M2 1500W

RS-F00-SPM2

Silent Pro M2 1500W features the highest wattage of our power supply series. It utilizes a powerful dual 12V rail that is capable of powering the most extreme system builds with multiple graphics cards running in NVIDIA SLI or AMD CrossFire. A skillfully designed aluminum-copper heatsink combined with a 135mm Super Silent Hydraulic Bearing fan help maintain low noise and temperatures under typical operations. A hybrid modular cable system ensures that critical components receive a strong hard wired connection while allowing the user to determine to customize their cable management. Silent Pro M2 Series features a length five year warranty.
