

AHUJA offers a new high power wall mounting speaker to meet the requirements of indoor public address and background music in locations of high ambient noise. WS-6255T has a power rating of 25 watts, which is substantially higher than that of conventional wall and ceiling speakers. This should be particularly useful in locations such as schools, colleges, hostels, canteens, government offices, hospitals, railway stations etc.

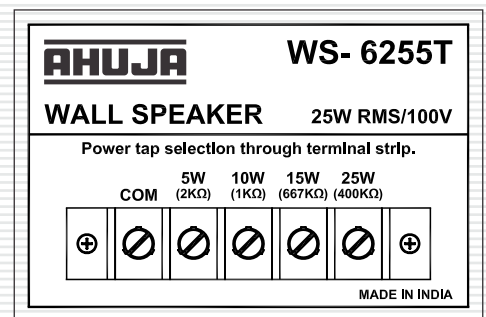

The unit consists of a highly efficient 5" speaker housed in an attractive gray colour high impact ABS plastic cabinet. A line matching transformer is provided, and the unit is designed to work on 100V line. Power taps 25 / 15 / 10 / 5 watts can be selected on the terminal strip on the rear.

Features

- 25 Watts rated power.
- Clear and clean sound for both speech and music.
- Elegant gray plastic cabinet.
- Keyhole for easy wall mounting.
- Operation on 100V line, with 4 power taps on terminal strip.
