

7-Port USB 3.0 Combo Hub

ACH120EU

Description

A sleek design for a new breed of USB products, that is what Targus offers with this new hub with a total of 7 ports.

Ever increasing number of USB 3.0 devices are being manufactured that need to be connected. What better way than to simplify all that by using a hub that combines 3 x USB 3.0 ports with an additional 4 x USB 2.0 ports.

HD media files, large files, and other resource-intensive operations can be handled at Super Speeds up to 5 Mbps.

The new 7-port hub will expand your USB capability to allow you the simultaneous connection of up to 7 devices that would otherwise clutter your desk with cables and occupy all of your desktop or laptop's USB ports.

Features

- 3 x USB 3.0 & 4 x USB 2.0 connectivity ports
- Including high performance USB 3.0 cable & power adapter for stable operation of connected devices
- Up to 10x faster than USB 2.0 Also accepts USB 2.0/1.x devices
- Supports Hot-Swap: Plug & Play devices without rebooting
- Up to 5 Gbps transfer speed
- Providing up to 80% more power than a USB 2.0 port
