Specifications -

Redundant, independent Dante / AES67 ports
- • Primary & Secondary
- • Will accept 48khz or 96khz
- • Capable of sending out Dante / AES67 audio from analog inputs pre/post processing (@ 48kHz)
- Audio Architect Control and Monitoring
- DriveCore Amplifier Technology
- Universal PFC Power Supply
- DSP
  - • 48kHz processing
  - • 20 Presets
  - • Input router
- High, medium, and low priority inputs
  - • Input delay up to 2s
  - • Input EQ
  - • Crossover
  - • Output EQ
  - • Output Delay up to 100ms
  - • LevelMAX limiter
  - • Load Monitoring
- Pilot tone
  - • Normal
  - • Burst
- Continuous Load Monitoring
- Sweep Load Monitoring
  - • Channel Auto-Standby
  - • Speaker Tunings
- Aux-Port
  - • Sleep contact closure
  - • Amp Status output
- Removable air filters
- Front panel LED indicators
- AES67 Compatible
- EN 54-16 Compliant for life safety applications
