

17.3" Widescreen 4Vu Privacy Screen Filter (16:9)

ASF173W9USZ

Overview

The Targus 17.3" laptop 4Vu™ Privacy Screen is designed to fit 17.3" widescreen laptops. To protect your information, tiny vertical blinds on the surface of the screen narrow the viewing angle so data is only visible directly in front of the monitor up to 30 degrees away from the center of the screen. Onlookers will only see a dark unclear screen when attempting to view the information from a side angle. In addition to providing security, the privacy screen also blocks the glare to help reduce eye strain. The Targus laptop Privacy Screen can be easily attached by using clear adhesive strips designed for LCD screens or with the included tab guides that stick to the edge of the LCD screen to hold the screen in place. Users can position the tabs so the screen easily slides on and off. Highly portable and easy to use, the Targus privacy screen protects valuable information on a laptop and LCD monitor from onlookers.

Features

- Low-reflective coating reduces glare
- SKANE M-8 Anti-Microbial prevents degradation and is ideal for touch screens
- 3 installation options
- Data only visible directly in front of screen and up to 30 degrees to each side
