**Description**

- The Targus 4Vu Privacy Screen for 11.6" widescreen laptops is designed to fit 11.6" widescreen laptops. To protect your information, tiny vertical blinds on the surface of the screen narrow the viewing angle so data is only visible directly in front of the monitor up to 45 degrees away from the center of the screen. Onlookers will only see a dark unclear screen when attempting to view the information from a side angle. In addition to providing security, The privacy filter also blocks the glare to help reduce eye strain. The Targus notebook privacy filter can be easily attached by using clear adhesive strips designed for LCD screens or with the included Tab guides that stick to the edge of the LCD screen to hold the filter in place. Users can position the tabs so the filter easily slides on and off.

---

**Features**

- Protects valuable information by narrowing the viewing angle; onlookers see only a dark screen instead of sensitive information
- Blocks the glare to help reduce eye strain
- Shields screen
- Highly portable and easy to use
- Limited warranty does not cover products purchased from 3rd party sellers
- Designed to fit 11.6-inch widescreen laptops
