

Overview

Targus Balance™ EcoSmart® range is the eco-friendly choice, produced using fabrics from recycled materials including water bottles*, with nickel-free components and recyclable zip pulls. Weather-resistant materials fare well against the elements so your tech, accessories and personal items are safe inside. Designed to fit up to 14" screens the Targus SafePort® Sling Plus System suspends your laptop inside the bag to protect against drop damage with quality padding to the sides and front of your device. A certified ergonomic design ensures carrying comfort, the Equalizer® strap contours to your left or right shoulder and continuously balances weight distribution.

A range of adjustable features and comfortable touch points tick all the ergonomic boxes. Thoughtful organisation and storage with large stash pockets and internal workstation. Crafted from earth-sensitive materials and designed with comfort in mind. Good for You. Good for Our Planet.
