

Tough, Light and Thin

Weight really isn't an issue with its thin and light notebook. Thanks to its aluminum and magnesium-aluminum metal chassis, it's able to weigh as little as 1.19kg and be as thin as 15.95mm.

Clearer, Brighter Vision

Watch more on-less. With the two narrow bezels and an impressive screen-to-body ratio, you get to see more of the 13.5" 3:2 2256x1504 IPS VertiView Display or 14" 16:9 FHD IPS screen. The addition of Acer Color Intelligence and ExaColor provides enhanced color contrast.

All-day Power

When you're on the move, you don't want to worry about your laptop not performing as you'd expect. The Swift 3 gives you all the power you need for a full day's work and entertainment.

Next Gen CPU

10th Gen Intel Core processors deliver approx. 2.5x-3x accelerated AI performance, up to 2x Graphics performance and nearly 3x faster wireless speeds.

Long Battery Life

- Spending all-day on the move requires a large battery, and at 56Wh it's capable of lasting for up to 16 hours. In cases of emergency it can also be fast charged to provide 4 hours use from 30 minutes charge.

Smart Access

The Swift 3 can be accessed even faster and more securely without having to use a password. Thanks to Cortana it can also be used as smart assistant to answer a wide range of questions.

Embedded Fingerprint Reader

An embedded fingerprint reader is a quick and secure way for Windows Hello to verify your identity without a password.

Wake On Voice (WoV)

Activate and query Windows 10 when the screen is off. Interact with Cortana when in Modern Standby mode.

Cortana

Microsoft's Intelligent Personal Digital Assistant, helps you stay on time for tasks and meeting schedules and syncs with multiple devices.

Storage

Modern laptop users demand plenty of storage for audio and video files and plenty of memory to play them efficiently.

Connectivity

With a full range of connectivity options including full function USB-C, Thunderbolt 3 the Swift 3 is capable of quickly connecting too many state-of-the-art devices. And, to be sure you can connect to legacy devices it also comes with USB 3.1 Gen 2 and a display port.

Dual Band Wi-Fi

The Wi-Fi connection is provided by dual-band Intel Wi-Fi 6 (GIG+) (802.11ax) which provides 1,700 Mbps download speeds, 75% lower latency and improved security.
