Vertiv SN-3C Specifications

SN-3C Sensor Modular Three Dry Contact

At a Glance

- Door Position Sensor
- 6.6ft long
- Can be placed anywhere in the rack
- This three dry contact input monitor sensor helps to protect the physical security of critical equipment by monitoring rack conditions and rack door status
- Compatible with Vertiv MPX and MPH rack PDUs using RPC card or Vertiv Liebert IS-UNITY-DP communications card
- One digital-input probe with three inputs
- Helps to protect the physical security of critical equipment by monitoring rack conditions and rack door status
- Auto-configuration means no set-up is required on the sensor

Overview

The Liebert SN-3C modular sensor is a three dry contact input monitor sensor with a two connection points to allow for a custom string design. Liebert SN sensors are designed to assist in monitoring conditions within a rack and can be placed in any area to read door status.

ADDITIONAL TECHNICAL SPECIFICATIONS

Operating Environment 41 to 131 degree F
Environmental Sensors Three Dry Contact Modular Temperature
Direct Integration Unity and RPC2

Package Contents

- ✓ Monitoring SN-3C Sensor
- ✓ 1 x Probe
- ✓ 1 x Sensor Bracket - Base
- ✓ 1 x Sensor Bracket - Support
- ✓ 2 x Screw (8-32 x 7/16)
- ✓ 1 x Dual Lock Fastener 0.5 ft. (0.15m)
- ✓ 2 x Cable Tie
- ✓ 1 x RJ45 to RJ45 Cable 6.6 ft. (2m)
- ✓ 1 x Alcohol Pad
- ✓ 1 x Fastener 1/4 Turn High Pro
- ✓ 1 x Quick-Start Guide
