

The [LTD](#) Guitars' target='\_self' >LTD 10 Series is designed for beginners and players on a tight budget who still want a solid instrument for the money. The MH-10 includes both an excellent starter guitar and a gig bag so you'll be able to take your instrument to lessons, or out to your friends' homes for fun jams. The MH-10 has a smooth, comfortable, thin U-shaped maple neck that will make it easier to get around to chords and scales all over the fingerboard with 24 extra-jumbo frets. It has a well-balanced and contoured basswood body that's good for playing while seated or standing. When you're ready to rock, the MH-10's ESP Designed pickups are great for any genre of music you like to play. Available in Black finish.
