

Product Description

PV® 6BT Compact Mixer 6 Channel with Bluetooth

Equipped with Peavey's reference-quality mic preamps that spec in at an incredible 0.0007% THD, the PV 6 BT mixer is excellent for live or recording applications.

The PV 6 BT mixer includes 2 channels of reference-quality mic preamps, 2 direct outputs for recording, a stereo input channel, and a dedicated media channel, and Bluetooth wireless input and high quality digital effects. Other features include 48 volt phantom power, dual selectable control room outputs, built-in stereo compressor, an on-board selectable high impedance preamp equalized for guitar, 3-band EQ per channel with bypass, signal/clip indicators, and a stereo master LED meter bridge.

Features such as Bluetooth allow seamless connection to almost any "smart" device. Direct outs on the mic channels allow easy connection to most DAW interfaces for recording. In addition, the PV 6 BT mixer can stream the stereo mix directly to and from a PC via USB. The USB to Control Room switch allows for direct monitoring when recording with a DAW, such as the included REAPER software. These mixers also feature a tablet cradle to hold a smart device for convenient display and easy operation.

- New rugged, slim, low-profile console design
- Convenient tablet cradle
- 2 combination XLR/1/4" low noise mic preamps
- 3-band EQ on all channels
- 2 channels of Peavey's exclusive MidMorph® EQ
- EQ bypass per channel
