

## PRODUCT OVERVIEW

### Tackle to-do lists

The ThinkCentre M70s small form factor PC was designed to handle all of your business tasks with efficiency. Powerful 10th Gen Intel® Core™ processors and fast DDR4 memory let you multitask with ease, handling anything from email to complex data operations. Further boost productivity with optional AMD Radeon™ 520 graphics.

### Multiple storage options

Optional solid-state drive (SSD) storage offers fast access for boot up, searching and opening files and makes for a more responsive storage drive. While 3D NAND technology gives your SSD more reliable performance and improved power consumption.

### Security inside and out

Lenovo's ThinkShield security solutions offer a combination of hardware and software working together to protect your system. The dTPM 2.0 chip encrypts your passwords and data, while BIOS-based Smart USB Protection prevents unauthorized access via peripheral. Physically secure the device itself with multiple features.

### Ease of use, conveniently located

The compact ThinkCentre M70s will be out of the way on top of your desk, but should you want to keep it underneath, you can turn it on from the keyboard. It supports up to three independent monitors, with plenty of ports to support other peripherals. Should you need to further configure your PC, its expansion slots make upgrades a snap.

### Space-saving style

At a reduced 8.2 Liter size, the ThinkCentre M70s SFF has an extra compact footprint, and is easy to deploy. Its Raven Black chassis has a clean, modern design that fits the evolving workspace. This PC will look great in any office, wherever you put it.

### Green design, comfortable usage

The ThinkCentre M70s PC meets multiple global sustainability standards, including Energy Star® 8.0\*, EPEAT® Silver, RoHS, and more. It's also certified for low noise emission by TÜV Rheinland, so this PC is both eco- and employee-friendly.
