

## Bass Amplifier Package with 1 Fly 3 Bass Amplifier, 1 Fly 103 Extension Cabinet, and 1 Power Supply

The Blackstar Fly 3 Bass amplifier stack package offers powerful tone for writing, practicing, and even recording. You won't believe how close this tiny stack sounds to a large bass amp when you connect the included Fly 103 extension cabinet to the Fly 3 Bass combo amp. Each unit pushes a huge amount of low end thanks to their specially designed cabinets and 3" speakers. This combination also offers true stereo performance, delivering a wide sonic field.

Fly 3 Bass combo amp

Blackstar's Fly 3 Bass 3-watt combo amplifier packs huge low end and articulate highs into an enclosure that houses a single 3" full-range speaker. The Fly 3 Bass's design allows it to pump an astounding amount of bass out of its tiny enclosure. Onboard overdrive and compression voice your tone exactly how you prefer. And the line input and line/headphone outputs are indispensable tools for practicing silently. The Blackstar Fly 3 3-watt, 1 x 3" combo bass amplifier is so convenient, it will quickly become your favorite practice tool.

Fly 103 extension cabinet

Turn your Fly 3 Bass combo amplifier into a 6-watt stereo setup with the Blackstar Fly 103 3-watt extension cabinet. The Fly 103 comes with its own built-in cable, making setup a snap. Not only does the Fly 3 Bass/Fly 103 combination make a great-sounding bass amplifier, but you can also connect it to your MP3 player or computer to transform the Fly 3/Fly 103 into a set of powered stereo speakers. Complete your portable rig with a Blackstar Fly 103 3-watt extension bass cabinet.
