Each Artisan amplifier is designed to offer the widest range of classic vintage and boutique tones to the highest possible sonic standard. This is achieved by the design of electronic circuits that work in harmony with the finest components and materials available. All the designs are simple in their operation and yet deceptively flexible in their functionality. The Artist 30 has a sonic qualities of the 30W EL84 power stage driving a pair of classic British speakers. With its two channel built around Ef86 with a 5-way Bass Shape switch and the other ECC83 is with the addition of a voice control for extra flexibility.
