

Blackstar HT Stage 60 112 Mark II - Combo Amp Description

SKU: BA119004-H

These astonishingly affordable amps and cabinets give you a bouquet of tone-shaping options you can use to dial in the character and expression of your sound. The HT Stage 60 MK II all-tube combo guitar amplifier sports a pair of EL34s, delivering 60 watts of balanced power to a Celestion 12" speaker. The HT Stage 60 also sports a pair of ECC83s in the front end, which allow each of the three carefully revoiced channels to boast impressive character, ranging from boutique clean to intensely overdriven.
