

The FS-12 is a multi-function footcontroller in a compact, low profile, durable aluminium body that allows access to all 36 patches of the ID:CORE 100 / ID:CORE 150.

-The large, clear dot matrix display ensures easy visibility for the fully chromatic tuner and current patch details.

-Two user-configurable function switches provide control for

-Modulation, Delay and Reverb effects on/off

-Modulation and Delay tap tempo

-Full Looper functionality

-Effects Loop on/off

-Super Widestereo on/off

-Noise Gate on/off

The FS-12 includes an extension socket for connection to the FS-13 2-button footcontroller (included with ID:CORE 100 / ID:CORE 150) In this configuration you can add two extra, programmable switches which are configurable via the Blackstar INSIDER software.

FS:12 – 5 Button Footcontroller For IDC:100/150 from [Blackstar](#) is 100% original and brand new.
