

Description for Bose 857000-0110 Sub1/Sub2 Adjustable Speaker Pole...

The black **Bose Sub1/Sub2 Adjustable Speaker Pole** lets you securely mount an S1 Pro or F1 Model 812 speaker to a Sub1 or Sub2 powered bass module, making it a great addition to your Bose PA system. Its telescoping capability provides the pole with up to 52" of extension and a locking pin prevents slippage from occurring. With its stainless steel construction and male M20 thread, the speaker pole is both sturdy and easy to install.

Designed for use with Bose Sub1 or Sub2 powered bass modules
Mount Bose S1 Pro or F1 Model 812 portable PA or other loudspeakers above Sub1 or Sub2
Telescoping capability with locking pin for extension up to 52"
Stainless steel with standard male M20 thread
