

The BLX14/SM35 with SM35 features a durable, industry-standard microphone cartridge in a comfortable headset design for hands-free performance combined with simple setup and an intuitive interface for performance you can trust.

SM35 Performance headset condenser microphone.

Wireframe headset fits securely and comfortably for active performers and multi-instrumentalists

- Tight, unidirectional cardioid polar pattern rejects signal bleed and feedback for use on loud stages and behind floor monitors
- Flexible gooseneck design allows for optimized placement that further improves source isolation
- Lightweight and low-profile form enables comfortable, long-wearing use
- TA4F (TQG) connector is compatible with any Shure wireless bodypack
- Locking snap-fit windscreens tame plosives, breath, and wind noise for clean and intelligible sound
- Tailored frequency response refined for clear, crisp vocal reproduction Included in BLX and GLX-D® wireless systems, renowned for their ease of use and reliable performance
- Legendary Shure precision engineering for durability and performance
