

PRODUCT OVERVIEW

The AL86AC features an integrated bar clamp so you can attach it securely to your existing Icon drum rack. You can then mount accessories or percussion instruments along its 18" length (mounting clamps or adapters sold separately). Its curved profile makes it easy to blend in into your drumkit.

When you need to add a little more hardware or components on your Pearl Icon Drum Rack, get the Pearl AL86AC Short Curved Rack Rail to extend your rack a notch.

Rail Capacity	18"
