

## PRODUCT OVERVIEW

Pearl's premium, tour-grade hardware range, the B1030C is the only cymbal stand featuring the unique positioning benefits of our Boomerang curved boom arm. Utilizing the infinite angle adjustability of Pearl's GyroLock tilter, this exclusive 12mm arched mounting arm creates totally unique set-up function and inspiring visuals.

Its knurled shaft also interacts with other Pearl Boomerang accessories, for previously unattainable cymbal configurations. At its base, the B1030C features our Trident Tripod and gig ready double braced legs for ultimate stability. The WingLoc quick-release cymbal nut delivers fast, easy cymbal changes, and die-cast, insulated pipe joints insure rock-solid performance under heavy play.
