**2021 HARDWARE
& ACCESSORIES**

The **Pearl CHC100 Boomerang Cymbal Arm** is a curved cymbal holder with a **3/8" inch** mount. You can mount the cymbal holder in **curved design** for example on any conventional L-Rod or cymbal gallows. Thanks to the infinitely variable angle adjustment with GyroLock, flexible adjustment possibilities are available. With a **diameter of 12.3 mm**, the boom is extremely robust.
