

Pearl CLH-70 - Everything at a glance:

- HiHat holder with boom and multi-clamp
- Uni-Lock Gearless Tilter
- Stepless angle adjustment
- Opening degree adjustable with spring
- Incl. multi clamp
- HiHat versatile positioning in the set

Closed hi-hat holder with boom and multi-clamp

The **Pearl CLH-70 Closed HiHat Holder** is a high-quality closed hi-hat holder that can be flexibly positioned. Due to the stepless angle adjustment and the robust **multi clamp** it can be positioned almost everywhere in the **drum set**. The angle can be adjusted continuously and additionally the opening degree of the cymbals can be adjusted with a **robust spring**. For this purpose, the **top cymbal** can simply be rotated to increase or decrease the opening.
