

Product Description

Designed for even greater sound, the CMT Competitor tenors offers extreme value and performance. 6-ply Poplar/Kapur shells feature a rounded bearing edge for full-bodied tone. Pearl's sonic cut on the shell bottoms project that big sound right to your audience. The lightweight zinc lugs casings provide precise, even-tuning by keeping the super-rigid steel hoops firmly planted to the shell. The bottoms of the shell are protected by rubber tom trim and lightweight aluminum tom spacers keep positioning perfect.

- 6-PLY POPLAR/KAPUR SHELL**
 - Shells offer strength, value and enhanced presence
- ROUNDED BEARING EDGES**
 - Eliminates unwanted overtones for superior clarity
- SONIC CUT SHELLS**
 - Maximizes resonance, focus and clarity
- DIE-CAST ZINC TENSION LUGS**
 - Die-cast lugs are designed for years of heavy duty use
- 1.6MM STEEL HOOPS**
 - Offers strength and durability, and even head tension
- 40MM SPACERS**
 - Keeps the spacing of the toms to a minimum for easier cross play and balanced weight distribution
