

PHANTEKS

ECLIPSE P360A

The gaming case with outstanding cooling and incredible value.

OPTIMIZED FOR GAMING

- Supports most full-sized gaming hardware
- Ready for RTX 30
- Optimized airflow for high performance gaming

ULTRA-FINE PERFORMANCE MESH

1 mm mesh

- Increase air intake with enlarged mesh surface area
- A seamless front panel design with ultra-fine perforations
- Minimize flow resistance with integrated dust filter

MINIMIZE DUST, MAXIMIZE AIRFLOW, WITHOUT COMPROMISE

ultra-fine 1 mm perforation mesh made possible by Phanteks engineering innovation in sheetmetal production techniques.

INTEGRATED D-RGB LIGHTING

addressable

addressable

rainbow

powered by

- 2x120 mm D-RGB PWM fans included
- Smooth D-RGB light trim design
- Software-free D-RGB controller
- Optionally sync with motherboard and software

FAN SUPPORT
