## Features:

### 1.Heart-shaped pointing pickup

The heart-shaped pointing pickup records the front sound source, reducing the useless noise from the side or back of the outside world, and can better pick up your sound source.

### 2.Cardan shaft design 360° rotatable

The joint between the microphone and the tripod adopts a universal shaft structure design, which can be rotated 360° to meet your multi-angle sound use.

3.The 1.8m detachable storage cable body, the connection between the cable body and the body adopts a USB-C interface, which can be freely and blindly plugged and unplugged, which is convenient and fast. Plug and play.

### 4.Cool RGB backlight

Cool RGB backlight, shining brightly, like dazzling bright stars in the dark night. There are 8 lighting modes for you to play with.

## Package Included:

1 x VS300 Microphone

1 x User Manual

1 x Connection line
