| Fretboard Wood                | Rosewood             |

The S2 Custom 24 takes the original PRS guitar, the Custom 24, and re-imagines it with stripped-down features and a new aesthetic. Retaining the classic maple top/mahogany back combination with our classic body shape and an asymmetrical beveled top, this guitar has a resonant, powerful voice. Its versatility comes from its 85/15 "S" pickups with push/pull tone knob, and 3-way blade switch. Familiar for PRS players of old, and a fresh take for players of all types.
