

Guitarist Dustie Waring is known for his heavy and melodic playing style, with regular flashes of metal menace. In order to meet his specific demands, PRS has designed Dustie a highly-versatile signature guitar based on their popular bolt-on CE 24 model - the DW CE 24 "Floyd". As its name indicates, the PRS Dustie Waring signature guitar comes equipped with a double-locking Floyd Rose tremolo system - enabling frantic whammy bar acrobatics. There's a raft of additional premium features too, including a smooth satin-finished neck shaped to Dustie's modified 'Pattern Thin' profile and a set of custom Mojotone pickups voiced to meet Dustie's demands.
