

Overview

Beautiful ziricote body and sides and stylish appointments for a real looker to match its great tone.

The PRS SE A60E pairs ziricote back and sides with a solid spruce top. The tone favors a full bottom end with rolled-off highs reminiscent of some vintage acoustic guitars. When matched with PRS hybrid "X"/ Classical bracing, which allows the top to freely vibrate, the SE A60E's voice projects with breathtaking volume and delicate nuance. The Angelus Cutaway body shape delivers comfort and playability, well suited for picking and fingerstyle playing.

Plugged in, the PRS SE A60E uses Fishman's GT1 pickup system to deliver dynamic, organic tones and allow players to easily take this guitar from rehearsal to the stage. This electronics system features an undersaddle pickup and soundhole mounted preamp with easy-to-access volume and tone controls.

The SE A60E is beautifully appointed with abalone and figured maple accents. Additional high-quality features include a solid spruce top, ebony fretboard and bridge, bone nut and saddle, as well as PRS trademark bird inlays and headstock design.

All PRS SE acoustics ship with a high-quality hardshell case.

Features

- Abalone/figured maple body purfling
- Black/abalone rosette
- Birds fretboard inlay
- Adjustable truss rod
- Fishman GT1 electronics
