

## Description

PRS SE P20E is a parlor-sized acoustic with a big voice, equipped with a Fishman Sonitone GT1 pickup system. This is a special limited edition model in Pink Lotus. SE P20E features all-mahogany construction and has an organic, warm voice in addition to traditional parlor features like sweet midrange tone, historic vibe and easy portability. PRS hybrid 'X'/Classical bracing allows the top to freely vibrate, letting SE P20E project with even, bold tone. Its smaller size makes playing for hours fun and comfortable and allows for more convenient transport. Parlor-sized acoustics can be miscategorized because of their size but make no mistake: this is a professional-grade instrument. Plug in, and the Fishman Sonitone GT1 pickup system delivers dynamic, organic tone, so whether writing, recording or performing SE P20E is sure to impress. This electronics system features an undersaddle pickup and soundhole mounted preamp with easy-to-access volume and tone controls, which essentially transforms what some may consider a 'couch guitar' into a workhorse stage instrument.

## Product Features
