

# DMInteract®

Unleashing Brilliance, Redefining  
Interaction – Your World, Your  
Display, Your Imagination!"

# Capacitive Touch with 10 Points:

Swift response time of 8ms for heightened sensitivity,  
Ease of operation on the screen,  
Incorporates a switch for touch deactivation.

## Water-Resistant Surface:

Crafted from a flat capacitive screen and 4mm thick tempered glass, offering a mirror-like brightness and precision. No need for concern if the surface gets accidentally splashed with water; it remains safe for use.

## 4mm Tempered Glass:

This distinctive tempered glass undergoes advanced laboratory-tested thermal chemical treatments, enhancing its strength to nearly unbreakable levels. As a result, it not only ensures safety and robustness but also provides a visually pleasing appearance and intuitive responsiveness to human touch.

# Optional Android/Windows System:

Customers can choose the version that suits their needs, with the option of Windows and access to the Google Play Store if desired.
