

Lukas

Air dehumidifier

LUKAS — dries quickly and smart!

Swing mode: for equal distribution of dehumidified air

Night mode with operation at a low level and dimmed LEDs

Function control via smartphone app

Hose for permanent drainage

Optionally available HEPA filter to add air purification function

Dehumidifier Lukas, the powerful roommate, dehumidifies up to 20 liters per day. In laundry drying mode, he uses the swing function to distribute the air evenly throughout the room, drying damp laundry in no time at all. In night mode, Lukas works quietly and discreetly. And he can be operated from anywhere via a smartphone app. With four dehumidification levels and a timer (1–9h or 24h timer in the app), Lukas offers customised control to reduce humidity. Lukas impresses with features such as automatic switch-off when the tank is full, digital hygrostat, child lock and a defrost function - also suitable for cold rooms down to 5 °C.
