

Peter

leatherette

Fan

PETER leatherette — the elegant tower fan

Touch-sensitive control panel with 6 speed levels

Oscillating mode for even distribution of the airflow

Remote control and convenient carrying handle

Natural Breeze mode simulates natural wind conditions

The air inlet filter retains coarse particles from entering the appliance

With his stylish appearance Peter leatherette makes a striking addition to any room. His cognac-coloured leatherette jacket fits in perfectly with any tasteful style of décor. The fan is energy-efficient and quiet. Thanks to his slim shape, Peter fits into the smallest of spaces and his swing function ensures evenly distributed air. Peter leatherette is individually adjustable, has a 1 to 7 hours timer and a natural breeze mode. The tower fan can be easily controlled via the touch panel with a light touch. He can also be operated using a convenient remote control. Thanks to his dimmable LEDs and quiet operation, tower fan Peter is ideal for the bedroom.
