

Specifications

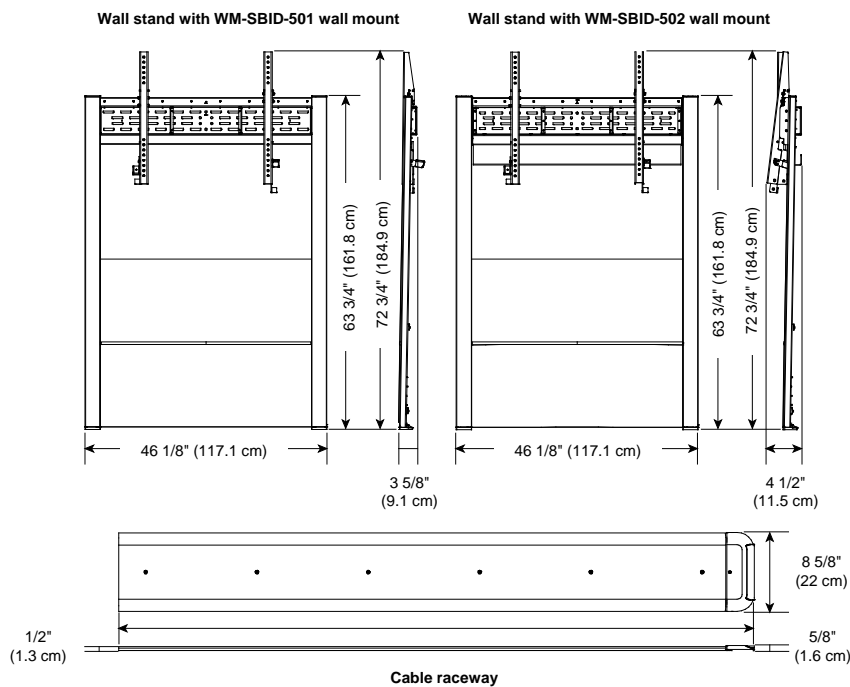

SMART wall stand kits for SMART Board® interactive flat panels and SMART kapp iQ boards

Models WSK-SINGLE and WSK-DUAL

Overview

An optional accessory for your SMART Board® interactive flat panels or SMART kapp iQ™ boards, the wall stand kit includes one or two wall stands and a cable raceway. The wall stand kit is for use with SMART Board interactive flat panel wall mounts (sold separately). The wall stands and the cable raceway can cover cables running from the interactive flat panels or capture boards to the meeting room table. In addition, the wall stands transfer some of the weight from the wall to the floor and are required for metal stud walls that cannot support the full weight of the interactive flat panels or capture boards. The cable raceway complies with section 303 of the ADA design standards.

Dimensions and weights*

Maximum supported interactive flat panel weight

276 lb. (125 kg)

Shipping dimensions

Wall stand uprights

68 1/2" × 10 1/4" × 11 5/8"
