

AMM02EU | Targus 2 in 1 Stylus for Tablets

The Targus Pen Stylus for tablet lets you take control of your touch screen and then flip over to use as a pen to take notes.

The tip of the stylus engages directly with your electronic, touch-screen device, requires no power or software to operate and instantly works right out of the box.

The stylus makes it easy to take digital notes, draw or simply turn a page. Featuring a durable rubber tip that won't scratch your tablet's surface, the stylus allows the user to type accurately and comfortably.

If you need to jot down notes during a meeting the other end of the stylus conveniently functions as a high quality pen. Using standard Parker Ballpoint refills, this convenient device will become inseparable from your tablet device.

Soft, durable rubber tip, leaves no smudges & glides across screen

Accurate typing, texting & drawing with patent pending rubber tip

Uses Parker refills for high quality writing

Use with any touch screen devices
