

My Passport[®] Wireless

Wi-Fi[®] Mobile Storage

Every device.
One drive. No wires.

Wirelessly access files from all your devices
Instantly back up and transfer SD card files
Built-in, rechargeable battery

My Passport Wireless is the one drive for all your devices. Save images and files from computers, tablets and smartphones to this single portable drive, all with no need for wires or Internet. Back up or transfer your photos and videos from your SD card to keep on shooting. Plus, stream media to your Smart TV, smartphone and tablet.

My Passport Wireless Wi-Fi Mobile Storage

Product Features

You're more attached with no attachments

Free of wires and the Internet, you can connect with up to 8 devices at the same time.

Built-in SD card slot

Instantly transfer or back up photos and videos from your SD card in the field so that you can keep on shooting.

Rechargeable battery to keep you going

Stay mobile with the long-lasting, built-in, rechargeable battery. Get up to 6 hours of continuous video streaming and up to 20 hours of standby time.

Wirelessly connect with your mobile devices

Interact with your media files using your tablet and smartphone with WD's My Cloud™ mobile app. Save and access your files securely from anywhere on any iOS® or Android™ device.

Stream media to connect devices

Stream up to 4 HD videos at once to multiple devices. Plus, stream your media to connected TV's, media players, gaming consoles and other DLNA®/UPnP® devices.

Internet sharing

Use My Passport Wireless as a Wi-Fi hub to share an Internet connection with multiple devices.

Keep your private stuff private

Feel secure from unauthorized access with Wi-Fi password protection for every file you save. Plus, protect your drive from USB access using Drive Lock in the device dashboard.

You're in control

Configure, manage and diagnose your drive using the intuitive dashboard. Run drive diagnostics, erase and format your drive, register your drive and more.

Ultra-fast USB 3.0

Quickly transfer large amounts of data to the drive using the ultra-fast USB 3.0 port.
