# HP Docking Solutions

Your notebook PC is the center of your work world, designed to go where you go, and perform equally well in fixed-location workspaces. With an HP Docking Station or Cable Dock, you can expand the functionality, flexibility, and connectivity of your notebook, and design a desktop setup that's ready when you are.

HP Docking Stations are designed exclusively for select dockable HP Business Notebook platforms. Available in wireless and wired models, they can charge your notebook battery, drive digital and analog displays, pass through mic and audio, connect to an Ethernet, add storage, connect to USB devices, and more. We even have ultra-slim designs to match your stylish slim notebooks.

When you just need to expand your connectivity without charging, choose an HP Cable Dock. Get display connections like HDMI, DisplayPort, and VGA, multimedia support with audio and mic connections, an Ethernet port, and expanded USB ports—all from a single USB connection to your notebook with an integrated driver.

HP offers a full line of docking stations designed exclusively for select HP Business Notebook PCs, which enables an optimised workspace.

# HP Docking Stations

## Expansive connectivity

You work on a notebook for maximum mobility, and when you need an optimised workspace, you want ultimate connectivity and ease of use. HP Docking Stations are designed exclusively for select dockable HP Business Notebook platforms to help you extend the connectivity and comfort of your notebook to a fixed station.
